

# Nate King

## Full Stack Developer

Full-stack developer with fifteen years of IT systems and management experience, who recently left the IT world to level up their technical prowess by becoming a developer. Years have been spent honing in on the abilities to troubleshoot, problem-solve, and think out of the box when it comes to standing out in the technology field. Whether having been working autonomously, a part of teams or leading whole departments, all challenges were met head-on and accomplished with efficiency, care, and the highest quality.

## Work Experience

### Cultivation Technician

Agri-Kind | Chester, PA

March 2020 - August 2020

- Support Master Grower by using past knowledge of plants to perform duties such as, but not limited to, plant tending, transplanting, feeding, defoliation, topping, flushing, inventory management, waste management, etc...
- Specialized in the fertigation system maintenance and operations. Developed and established a fertigation department along with best practices for the department. Oversaw 5000+ plants as well as a vast array of mothers and clones
- Responsible for nutrient replenishment in the automated fertigation system on a daily basis as well as making sure the nutrient mix is balanced and pH'ed per the Master Growers specifications in the mother, veg, and bloom stages.
